

# Comfort Level during activities

I'm working on a machine learning project to help decide which articles of clothing you should wear for a given activity and weather forecast to be comfortable.

Please try to take a minute to fill this out any time you're active outside!

**\* Required**

## 1. Which activity did you do? \*

Examples: Skiing, Walking, Hiking, Tennis, etc...

Mark only one oval.

☐ Skiing/snowboarding

☐ Tennis

☐ Hiking

☐ Running

☐ Walking

☐ Other: .....

## 2. (OPTIONAL) Any specific details about the weather when you were out?

I'm going to try to get your weather from the date, but if you want to include anything unusual or unique, enter it here

.....

## 3. Sub-activity

Were you doing a particular kind of the activity? For example: mogul skiing, groomer skiing, trail running

.....

## 4. What did you wear? \*

Please specify what layers you wore. Example: "Tshirt, fleece, shell jacket"

.....

.....

**5. How comfortable were you? \****Mark only one oval.*

- ☐ Too cold
- ☐ Comfortable
- ☐ Too hot
- ☐ Other: .....

**6. When you did the activity? \***

This helps me to look up the weather later on for that day

.....  
*Example: December 15*

**7. Where did you do the activity? \***

Looking for city/state, or even a specific location (e.g. Vail Ski Resort)
